Cordless Speakerphone

40-Channel Auto Scan
Automatically selects a clear channel.

2.4 GHz Transmission
An advanced cordless telephone operating on 2,400 MHz frequency offering clearer reception and significantly less interference with better range.

Battery-Low Warning
Tone alerts user when battery is low.

Chain-Dialing Capability
For chaining multiple sets of numbers. Saves dialing time when making credit card calls or using other phone card PIN numbers.

Charge Indicator Light

Crystal Clear® Phone with Compandor Technology
Extends the effective range of your cordless telephone and virtually eliminates static and interference.

Consumer Replaceable Rechargeable Nickel Metal Hydryde (NiMH) Battery

Convenient Push-Button Channel Advance

Digital Security System
Prevents false ringing and unauthorized access to phone line from other cordless telephones.

Distinctive Ring Detection
Compatible with the distinctive ring service available from your telephone company.

Dual Keypad
Keypad in base and handset.

Electronic Hold
Holds line and releases automatically from any extension.

Flash Function
For access to subscription telephone services like Three-Way Calling and Call-Waiting.

Handset Volume Control (Hi/Lo)

Hearing Aid Compatible

Line-in-Use Indicator

Mute
Engage in side conversation without the calling party hearing.

One-Touch Redial
Redials the last number dialed.

Out-of-Range Warning

Pause Function
Inserts a pause between numbers when chain-dialing or programming memory.

Ringer On/Off Control

Ringer Volume Control

Speakerphone with Hands-Free Dialing
Dial out of memory or keypad without picking up the handset.

Speakerphone Volume Control

Temporary Tone
Allows pulse/rotary users to easily access tone services.

Tone Feedback
Confirms each digit was dialed.

Tone/Pulse Switchable Dialing

Two 10-Number Memories
Separate memories in handset and base for frequently called numbers.

Two-Way Page and Intercom
Between cordless phone and base unit. Also helps locate lost handset.

Visual Ringer in Handset Antenna
LED in handset antenna illuminates when phone rings.

Type II Caller ID

40 Name-and-Number Call Memory

Back-Lit Three-Line LCD shows:
- Caller's phone number or name and number.
- Date and time of call.
- Call sequence number.

Caller ID with Type II Call-Waiting Compatibility*
Display shows name and number of person calling while you are on the phone with another caller.

Dial-Back Function
Quickly dials the number displayed with the touch of one button. You can select any number in memory to dial back.

Forward/Reverse Call Review
Allows you to scroll through the list of incoming calls and delete those not wanted.

Voice Mail Indicator
If you subscribe to an optional Voice Mail service available from most phone companies, this light alerts you to new messages.

Styling

Belt Clip Compatible (Belt clip included)

Desk or Wall Mountable

Innovative Design
- Complements most home decor.
- Easy to use and operate.

Reversible Charge Design
Recharges face up or face down.

Plus

FCC Registered

UL Listed

One-Year Limited Warranty
See dealer for complete details.

** This feature requires subscription to the Caller ID service from your local phone company. Caller ID Number and Name-and-Number service is not available in all areas. To operate the Call-Waiting ID feature, you must subscribe to Caller ID Name/Number with Call-Waiting special combination service.*
